② Covid - 19

## Outline -

- Introduction
- Symptoms of Covid - 19
- Prevention of Coronavirus
- Origin of Covid - 19
- Conclusion

## Introduction :-

Corona Virus which is commonly known as COVID-19 is an infectious disease that causes illness in the respiratory system in humans. The term COVID-19 is short of an acronym, derived from "novel corona virus. Disease 2019". coronavirus has affected our day life. This Pandemic has affected millions of people, who are either sick or are being killed due to the spread of this disease. COVID-19 is a new virus that is impacting the whole world contact with the person. It is spread from person to person among those in close contact within 6 feet.

- Symptoms of COVID-19 :-

The most common symptoms of this viral infection are fever, cold, cough, bone pain, and respiratory problems. Apart from these symptoms like fatigue, sore throat, muscle pain, loss of smell or taste can also be seen in COVID-19 patients.

- Prevention of COVID-19 :-

Thus, the emphasis is on taking extensive precautions such as extensive hygiene, regularly washing of hands with sanitizers or soap, avoidance of face-to-face interaction, social distancing, and wearing a mask, etc.

• origin of coronavirus :-

coronavirus was first identified in Dec 2019 in Wuhan city of China. In March 2020, the World Health Organisation [WHO] declared the coronavirus outbreak a Pandemic.

Due to coronavirus, the Government of India under Prime Minister Narendra Modi announced nationwide lockdown for 21 days on 23 March 2020, limiting the movement of the entire 1.3 billion population of India as a preventive measure against the coronavirus pandemic in India.

As a result, in India, all educational institutions and almost every commercial establishment had to be shut down.

• conclusion :-

All the governments, health organizations, and other authorities are continuously focusing on identifying the cases affected by the COVID-19. Healthcare Professionals face lots of difficulties in maintaining the quality of healthcare these days.

With the world facing the COVID-19 crisis, the Pandemic has wreaked havoc and altered human lives forever. Its impact and the untoward consequences will be felt long after the virus diminishes.

Yet, in times like this, hope is a powerful healer. mankind stands united in its struggle against the COVID-19 Pandemic and life will surely triumph.
